D. Commissioners' Comments

There were no commissioner comments.

E. Staff

i. City of Knoxville Director of Transit

Melissa Roberson reminded the committee that the holiday service postings are on the KAT website and the City of Knoxville website. Ms. Roberson then stated that 41.67% of KAT's fiscal year has passed and that KAT is exceeding budgeted revenues year-to-date. She added that KAT's operating expenses are below budget and that after factoring in various subsidies received, KAT currently has an excess of revenue over expenses of \$12,959. Ms. Roberson concluded her report by sharing that ridership is up year to date and then asked Belinda-Woodiel Brill to discuss the results of KAT's 2018 football season service.

Belinda Woodiel-Brill stated that ridership on Saturdays with a UT football game in Knoxville saw 28% more ridership than non-game days in the fall. Ms. Woodiel-Brill added that route 11 in particular saw a 41% increase on home football game days which she attributed to increased marketing efforts. The 2018 season was the first with the board-approved increase in shuttle fares which resulted in 20% less ridership on the football shuttles but an increase in revenue of 37%. When factoring in increased expenses, KAT saw an excess of \$29,000 over expenses for the 2018 football shuttle service according to Ms. Woodiel-Brill.

Commissioner Richards asked if there was an equal number of home football games in 2017 and 2018. Ms. Woodiel-Brill responded that there was an equal number of home games.

Commissioner Crouch inquired about the reasons for the increase in expenses for the shuttle service. Ms. Woodiel-Brill responded that there is a standard increase in operator pay that contributed to the additional expenses seen this season.

Commissioner McKenzie asked to be reminded of football shuttle fare increase amounts. Belinda Woodiel-Brill responded that the round-trip fee of \$6 was increased to \$10 for service from the Coliseum parking garage, the Old City, and Market Square while the service from Farragut High School increased from \$16 to \$20.

Commissioner Burbano asked what fare increases require approval and which do not. Melissa Roberson responded that the board approves all fare rates but that there are some increases in fixed-route service fares that require a public hearing. Ms. Roberson added that the football shuttle service operates under the charter regulations which requires board approval for fare changes but not a public hearing.

Commissioner Burbano asked for an update on the real-time bus arrival texting feature. Belinda Woodiel-Brill responded that stickers are being placed on each bus stop sign in the system that have a unique number and instructions for texting the system for next bus arrival information.

ii. TPO Transit Planner

Doug Burton reported that the TPO receives federal funds that non-profit organizations can apply for to purchase vans for senior, elderly, or disabled client transportation. Due the holidays, the application deadline for this funding has been extended to Friday, January 25th. Mr. Burton stated that those interested can call him at (865) 215-3824 or visit www.knoxtrans.org for more information.

Mr. Burton reported that the Knoxville Knox County Metropolitan Planning Commission has changed its name to Knoxville-Knox County Planning.

IV. New Business

- A. Gerald Green, Executive Director of the Knoxville Knox County Metropolitan Planning Commission, gave an update of the ReCode Knoxville project. ReCode Knoxville is a comprehensive update of the City of Knoxville Zoning Ordinance which has not been updated in almost 60 years.
- B. Chair Hairr asked that Commissioners Booher, Watkins and Williams serve on the KTA Nominating Committee to nominate individuals for KTA officer positions. All three commissioners agreed and Chair Hairr thanked each of them for their service.

V. Old Business

There was no old business.

VI. Public Comment

There were no public comments.

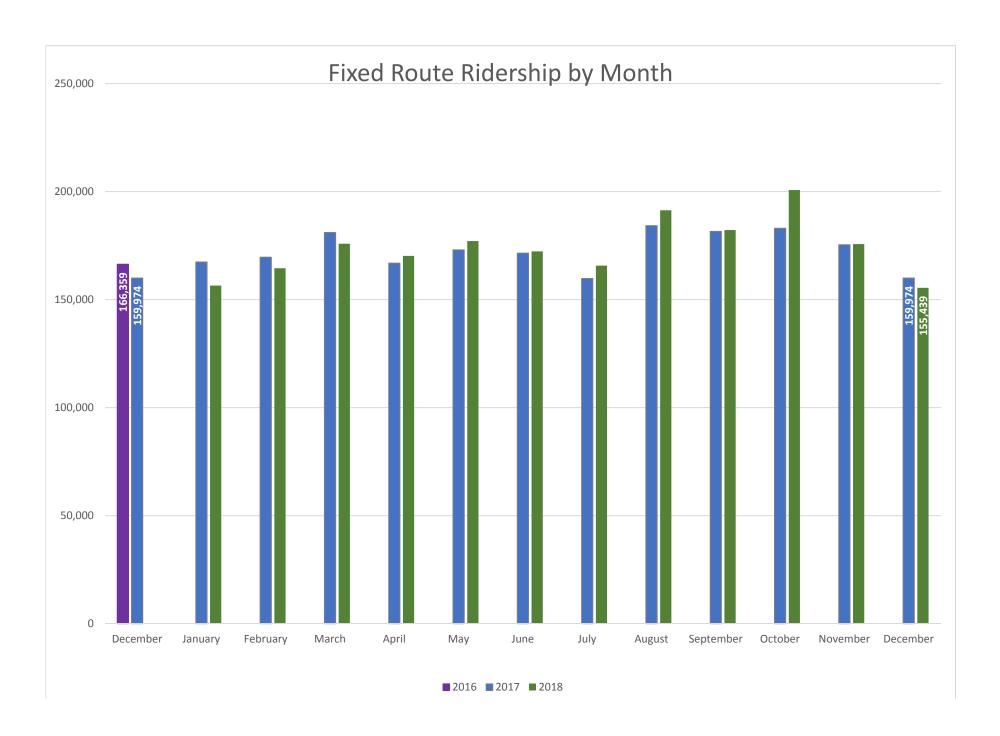

VII. Set Next Meeting and Adjourn

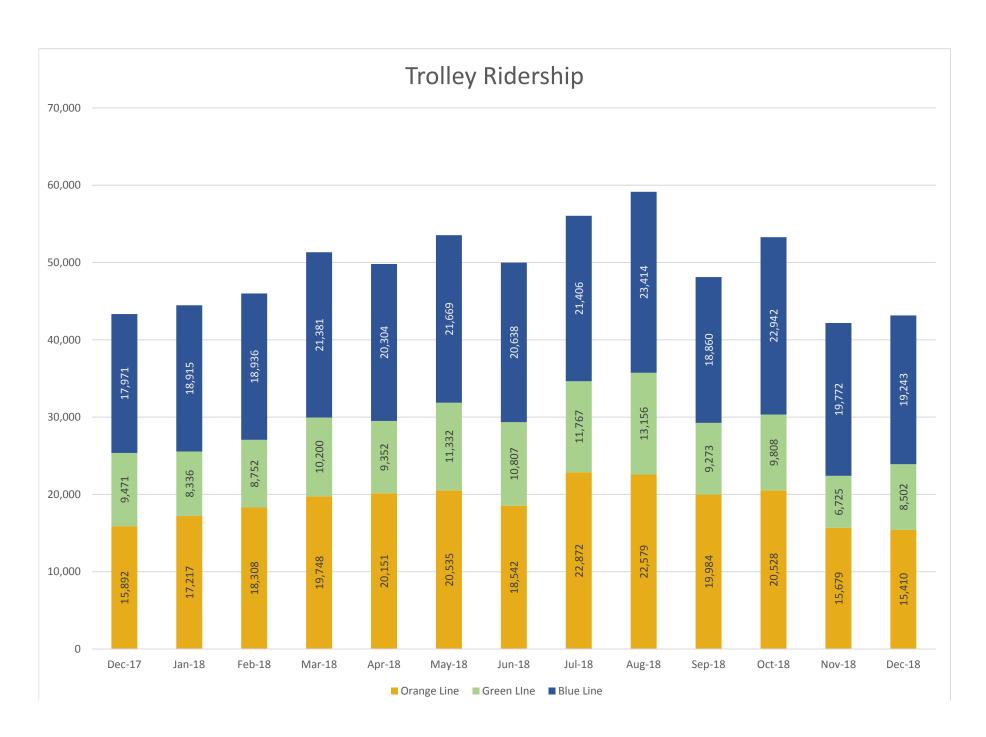

The next meeting was set for January 24, 2019 at 3 p.m. at the City-County Building, 400 N. Main Street, in the Small Assembly Room.

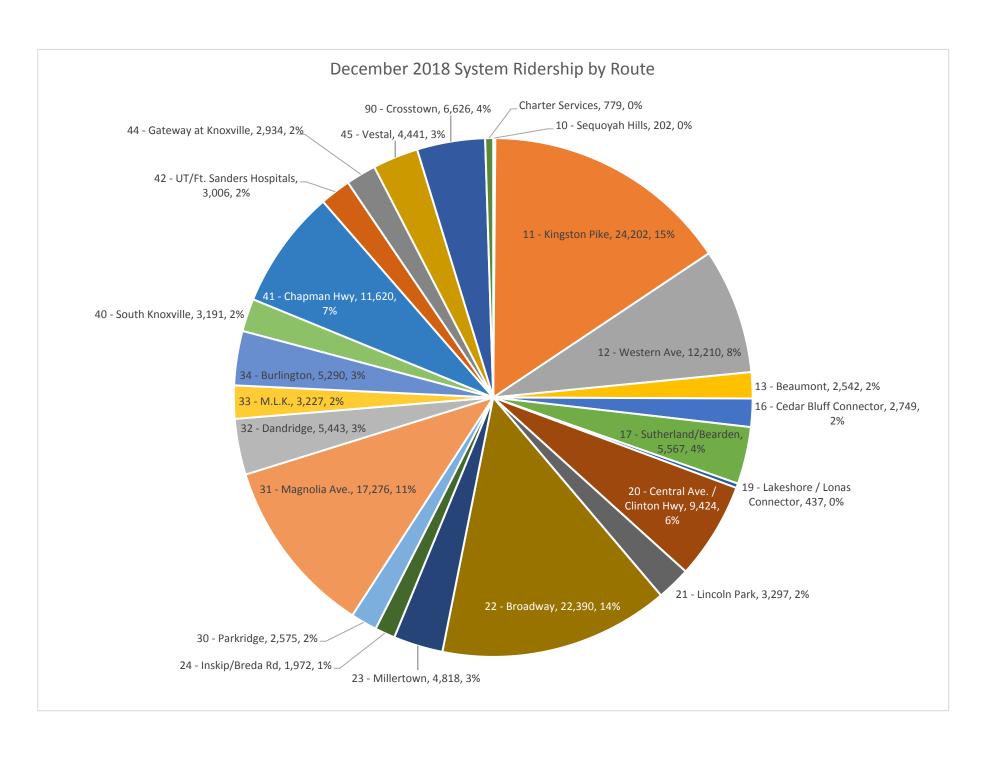

Respectfully submitted,

Jacob Wright

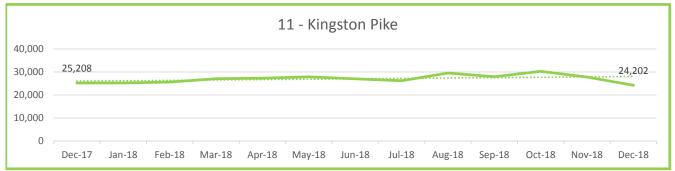

KTA Recording Secretary

Transit Implications of the Recode Knoxville Plan

For successful, high quality transit to succeed, it requires:

- a good density within walking distance of major corridors
- **diversity of passengers** that can easily make use of it, including seniors and retired persons, business professionals and graduate students, and those working low wage as well as higher wage jobs.

This requires a diverse mix of housing types within walking distance of transit corridors.

KAT **applauds the mixed-use corridors identified in the plan**. If developed to its full potential, this can provide additional housing opportunities for those who choose to live along urban corridors and enjoy the excitement of an urban environment.

We are, however, concerned about the **reduction in the types of housing opportunities** with the redesigned zoning of many of Knoxville's core neighborhoods. Reducing the opportunity for well-designed triplexes, fourplexes or bungalow courts within the urban core – in particular within ¼-mile of core transit services - also reduces the opportunity for a large segment of the residential population who may want to take transit, but either

- a) don't want to live along a busy corridor (or cannot afford the associated higher costs)
- b) cannot afford or choose not to be burdened with single family home ownership

Examples of this demographic would be:

- seniors who want to downsize
- graduate students with small children
- young people new to the workforce
- new residents of Knoxville
- lower income residents whose household income could benefit from good transit access

By not providing these opportunities, developers for rental units will choose properties far from transit routes, in areas that are difficult to serve with transit, and require longer passenger commutes to reach destinations. This negatively affects transit, congestion, air quality and sustainability and opportunities for job access and upward mobility. While we know these developments are occurring and will continue to occur, we would love for Knoxville's rental and non-single family housing community to have a locational choice, and the opportunity for good transit access.

For high quality transit to succeed in Knoxville, KAT recommends including the potential for mid-level housing opportunities within ¼ mile of the major corridors, with detailed, thoughtful design guidelines to protect the character of Knoxville's beautiful neighborhoods.
